

Why Pay Extra for Dried-Up Tobacco?

That's what you do when you buy chopped-up tobacco in tins, bags or foil. Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.

"CASCARETS" RELIEVE SICK, SOUR STOMACH

Move Acids, Gases and Clogged-Up Waste from Stomach, Liver, Bowels—Cure Indigestion

Get a 10-cent box now. That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. Then your stomach trouble is ended. A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.—Adv.

This gives you—at a cost of 10 cents—a full quart of better cough syrup than you could buy for \$2.00. Takes but a few minutes to prepare. Full directions with Pine. Tastes good and never spoils.

You will be pleasantly surprised how quickly it loosens dry, hoarse or tight coughs, and leads the inflamed membrane in a peaceful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

RANDOLPH

Mr. and Mrs. W. H. Gladding left on Wednesday for Lacombe, N. H., where they had been summoned by the death of Mr. Gladding's only brother, George Gladding, who died on Monday from the effects of an operation which he underwent on Sunday, for strangulated hernia. Mr. Gladding had not been strong for several months, but this illness came upon him suddenly, and he had not the strength to rally, having reached the age of 77 years. He is survived by his wife, one brother, W. H. Gladding of this place, and two sisters, Mrs. V. A. Grant, and Mrs. J. H. Chadwick, neither of whom was able to attend the funeral. For years he had been in town nearly every summer and had made the acquaintance of several of the people here as well as at Montpelier and vicinity. DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back Hurts or Bladder Bothers, Drink Lots of Water

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt, which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grams of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days, and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful, effervescent, lithia-water drink, which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

The following incident of pioneer life in town has been related to the scribe by A. S. Winchester, great-grandson of Daniel Harrington, the chief actor in the story. When the young Daniel and his wife came to Williamstown from Connecticut, they "made a pitch" on what has since been known as Harrington hill in the southern part of the town.

There he made a clearing and built a log house, the site of which is still to be seen on what is called the south lot on the farm of J. H. Winchester. All went well until one day the young couple "lost their fire." As this was long before the invention of matches it was the custom of the times to go to the nearest neighbor and borrow some fire in a little or something in which fire could be carried. In this case young Harrington went to the house of Judge Paine in the western part of the town, following a line of marked trees as there were no roads. He got his fire but on the way back found that the fire had gone out. So he was obliged to return to Judge Paine's for another supply and this time reached his home with the fire burning and was able by its aid to rebuild his own.
